DETAILED ACTION

Reasons For Allowance

1. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the claimed combination including the limitations directed to the specifics of a method of adjusting a tappet clearance between an adjusting screw in a rocker arm and an engine valve stem, comprising: determining an adjusting origin from a measured torque; and loosening the adjusting screw by an amount corresponding to a clearance setting specified value from the determined adjusting origin, is not disclosed or rendered obvious the art of record.

Regarding claim 2, the claimed combination including the limitations directed to the specifics of a method of adjusting and confirming a tappet clearance between an adjusting screw in a rocker arm and an engine valve stem, comprising: determining an adjusting origin from a measured torque; and loosening the adjusting screw by an amount corresponding to a clearance setting specified value from the determined adjusting origin, is not disclosed or rendered obvious the art of record.

Regarding claim 3, the claimed combination including the limitations directed to the specifics of a device for adjusting and confirming a tappet clearance between an adjusting screw in a rocker arm and an engine valve stem, comprising: a computing unit capable of obtaining an adjusting origin from torque measurements, and a displacement gauge is used for confirming a clearance setting specified value, is not disclosed or rendered obvious the art of record.
